### **Our Approach**

A reliable solar power project requires good planning and professional execution. We have the right kind of expertise to take your project from initial stage to installation through our team of experienced engineers and technicians.

We provide guidance on project budgets, timelines and selection of equipment to guarantee a return on your investment.

## Our Products

We import our products from leading solar equipment manufacturers and the products are guaranteed for performance. Our retail store has stock of all solar equipment for projects and also supplies individuals and other solar companies.

### Canadian Solar

Founded in 2001 in Canada, Canadian Solar production facilities in Canada, China, Indonesia, Vietnam and Brazil are structured for the manufacturing of ingots, wafers, solar cells, solar PV modules, solar power systems and specialized solar products.

In 2008, Canadian Solar was one of the first module manufacturers to have an onsite ISO/IEC 17025-compliant testing laboratory.

### Victron Energy

Victron Energy has a strong, unrivalled reputation for technical innovation, reliability and build quality. Victron products are widely considered to be the professional choice for sinewave inverters, sinewave inverters/chargers, battery chargers, DC/DC converters, transfer switches, battery monitors and more.

### Tesla Energy

Tesla, Inc. (formerly named Tesla Motors) is a major American automaker, energy storage company, and solar panel manufacturer based in Palo Alto, California.

SolarSky is Zimbabwe's only certified Tesla Energy installer.
